### Croatia – OMIŠ – Nemira – Sovulj guesthouse

**The Omiš Riviera** is made up of a large number of smaller and larger, pebble and sandy beaches continually washed by the sea, surrounded by lush Mediterranean flora. At the centre of this alluring riviera nestles the ancient pirate town of Omiš. It emerged at the very mouth of the karst Cetina River, right at the gates of a natural trail that meanders through the river canyon inland, revealing the romantic Cetina islands, and gorgeous excursion destinations to the Radman mills and the famed Mala and Velika Gubavica waterfalls near Zadvarje. Towering over these settlements are the rocky slopes of the Mosor and Omiš Dinaric Alps. The wall of rock is interrupted only by the mouth of the Cetina River near Omiš. It offers effective protection from icy winter winds, which is why the green slopes that lie beneath the silvery mountainous masses are lush with olives, fig trees, and grapevines, as well as lemons and oranges. The endless lapping of the sea has created countless small and large beaches with deposits of pristine sand and white pebbles.

**The SOVULJ Guesthouse** is situated in Nemira – a small tourist centre, 2 km from the centre of Omiš. It offers accommodation in very nice two- and three-person rooms, all of which boast a balcony with a **view of the sea**. The guesthouse also includes a dining room with a sea-view terrace. Additionally, the guesthouse offers a ping pong hall and a parking lot.

Pebble **beach**, 100 m from the guesthouse, via stairs.

**Meals** – half-board Croatian cuisine.
